C. Definition of terms used to identify the Project review status in the Quarterly Status Report

Screening

EAB — Project is undergoing review by the Environmental Assessment Branch to determine if it is a 'development' as defined under *The Environmental Assessment Act*.

EARP — Project is undergoing review by the Environmental Assessment Branch and members of the Saskatchewan Environmental Assessment Review Panel (SEARP) to determine if it is a 'development' as defined under *The Environmental Assessment Act*. In addition, copies have been forwarded to the Canadian Environmental Assessment Agency (CEAA) as part of the Canada/Saskatchewan EA Harmonization agreement for CEAA to determine if the *Canadian Environmental Assessment Act* applies.

NFS — Project has been reviewed and the proponent has been advised that no further screening under *The Environmental Assessment Act* is required.(i.e., an opinion has been provided to the proponent that based upon the information they have provided the project does not meet the definition of 'development' under *The Environmental Assessment Act).* The proponent may now proceed with application for all other regulatory permits/approvals.

Environmental Impact Assessment

EIA — Proponent has been advised that their project is a 'development' as defined under *The Environmental Assessment Act* and that they will be required to conduct an Environmental Impact Assessment and seek ministerial approval before proceeding with their project. Studies are being conducted; technical and/or public reviews are in progress.

Sec16 — Proponent of a project that has received a ministerial approval to proceed has now proposed a change in the 'development' that does not conform to the terms and conditions contained in the original approval and must obtain ministerial approval under Section 16 of *The Environmental Assessment Act* before proceeding with their change.

COM — EIA has been completed and a Ministerial decision has been reached on the project this includes decision under Section 16 of *The Environmental Assessment Act* (changes to a previously approved development).

Other

DEF — A deffered project is one that has been withdrawn from the environmental assessment review process by the proponent.
